

RESIDENT HANDBOOK

SECTION III: TRAINING ENVIRONMENT

RESIDENT INFORMATION TECHNOLOGY POLICY

DEFINITION

IT refers to the use of information technology services and connections during the residents' regular work and on-call hours. This policy is that of the NSHE policy which the Kirk Kerkorian School of Medicine at UNLV (KSOM) is required to follow and is reprinted here for your convenience.

APPROPRIATE USE

- I. All voice, data, or video traffic must originate or terminate at device(s) directly attached to a network owned and operated by a NevadaNet* Participant site.
- II. All NevadaNet voice, data, and video traffic ~~be be~~ -profit public service

with the acceptable use and other policies of any network over which such traffic
routed to reach its final destination

ere with the operation of NevadaNet or unreasonably interfere with the use of
et by other participating entities

ctly violate this policy by using services of another network provider to
at the intent or meaning of this policy

ipants including residents must also ensure that connections made to them and
e NevadaNet backbone are consistent with the efficient and effective use of a
esource. They are obligated to know what networks are connected and what
e of the connections.

INAPPROPRIATE USE

- I. It is not appropriate to use NevadaN

- e. Using the network to make unauthorized entry to other computational, information, or communications devices or resources

ENFORCEMENT

- I. NSHE System Computing Services (SCS) will initiate an inappropriate use investigation when a complaint is received or a network problem is discovered that appears to be caused by use that violates this policy. SCS will investigate the validity of the complaint or event, examine the available facts, and make a determination as to the party(ies) responsible for the infraction.
- II. Once identified, the administrative contact(s) of the offending party(ies) will be contacted by SCS personnel via electronic and land mail providing notification of the findings of the investigation and requesting resolution of the infraction within five (5) business days or as may otherwise be legally required.
